12. SUPERBIKE & SUPERSPORT TYRE CONTROL: The Superbike & Supersport Classes are restricted to using 3 dry weather tyres only during the events' races. At sign-on, riders will be issued a pack with 3 numbered tyre stickers which must be fitted to the tyres for use in the two championship races. Each rider will be issued with different numbered stickers (rider "A" 3 X number 1 sticker, rider "B" 3 X number 2 sticker etc.) which will be recorded against their name and the machines will be checked on the dummy grid and/or in Parc Ferme at the end of the race to ensure the correct numbered stickers are fitted to the tyres. Where a numbered tyre is not fitted, the competitor will be excluded from the results. The onus is on the competitor to ensure the stickers are fitted correctly and information will be provided by the organisers in this regard. It is not a requirement to have stickered tyres for qualifying, practice or warm-up

sessions. In addition, if a race is wet, there is no restriction on wet weather tyres and no requirement for them to be marked.

13. COURSE. The races will be held over the **MONDELLO PARK NATIONAL CIRCUIT**, which measures approximately 1.2 Miles per lap and is ridden **CLOCKWISE**. Touring on the circuit during practice or racing is not permitted. Riders must not either ride or push their machines in the reverse direction of the course, unless under the instruction of an official.

14. PITS: The Pit area will be clearly marked and will be situated close to the start. Signalling to a rider from a position other than the pits is forbidden and failure to comply with this requirement may result in the exclusion of the rider the pit attendant represents.

15. PIT LANE CLOSING: Riders are required to bring their machines to the dummy grid in the pit Lane in advance of their race. The dummy grid opens when the previous race starts. The organisers will call riders to the dummy grid and all riders must report there before the pit lane opens. Once the pit lane opens all riders who are in the dummy grid will be released for their warm-up laps. Any rider who arrives at the dummy grid after the first rider on track has entered the main straight at the end of their first warm-up lap will be held in the pit lane and will have to start from the pit lane after all machines on the grid have passed the start line off the start.

16. PRACTICE: Practice will commence after 09.00 on Saturday May 7th. The order and composition of practice will be as per instruction of the Clerk of the Course and will be displayed in the race programme. Anyone who misses their practice session will be deemed a Non Qualifier. Anyone who practises in the wrong class may be excluded from the meeting.

17. GRID POSITIONS FOR SUPERBIKE AND SUPERSPORT: Grid positions for the first Superbike and first Supersport race will be determined by timed practice using transponders, when available. If transponders are not available, grid positions will be by championship positions for all riders entered by the closing date. In the event of any dispute, the decision of the event officials will be final. Grid positions for the second race will be determined by fastest lap times in race one. Where two riders set an identical lap time the riders will be placed on the race 2 grid in order of their finishing position. Any rider who starts race 1 but does not set a lap time in that race will be demoted six places from their starting position from race 1 for race 2. Grid positions for the third race will be determined by fastest lap times in race two. Where two riders set an identical lap time the riders will be placed on the race 3 grid in order of their finishing position. Any rider who starts race 2 but does not set a lap time in that race will be demoted six places from their starting position from race 2 for race 3. The grid for all Superbike and Supersport 'B' races will be determined by times set in the official qualifying session. Only riders who qualify within 110% of the fastest qualifying time in their class (either Superbike or Supersport) will be allowed to take a place on the championship race grid. In all cases it is a riders sole responsibility to make themselves aware of the race/races in which they will be placed and what their correct starting position should be.

18. GRID POSITIONS FOR ALL OTHER CLASSES: Grid positions will be determined by timed practice using transponders, when available. After receiving the chequered flag competitors will be directed to the paddock by the flag marshals.

22. FALLEN RIDERS: Once a rider has fallen from their machine, they are not permitted to remount or continue in that race or qualifying/practice session. The machine has to be rechecked and passed by a scrutineer before the rider can continue in the meeting. Any infringement of this rule will result in the rider being excluded from the remainder of the practice session or race and may result in further penalties. In the event of a practice or race being interrupted by a red flag, any crashed machines will be recovered and taken to the Scrutiny Bay and released to the Team for repair. Once the repaired machine has been re-inspected and cleared by the MCI Scrutineer a rider may continue in the restarted practice or race. In the case of the second part of an interrupted race this only applies to riders classified in the result of the first part.
