7. CHAMPIONSHIP REGISTRATION: Championship Registration is a requirement of competing in any Masters event, even as a one-off competitor. Championship registration is free and available on-line on the championship web site www.masterssuperbike.ie.

8. CHAMPIONSHIP POINTS:

8.1. POINTS SCORING: Points are counted as per FIM regulations in the following way;

1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th	11th	12th	13th	14th	15th
25	20	16	13	11	10	9	8	7	6	5	4	3	2	1

8.2. TIE BREAKER: In the event of a tie at the end of the championship the tied riders finishing position record will be used to determine their championship order. If the finishing positions of two riders are equal across all of their counting rounds, their performances in their dropped rounds will be used. If after including dropped rounds the riders are still tied, the rider who finishes highest in the final counting championship round will take the tied position.

8.3. COUNTING ROUNDS: The championship will be split into two sections. Events 1-4 will be section 1 and events five and six will be section 2. Each competitor will count points from a maximum of three events in Section 1 and count all points scored in section two towards their final total.

8.4. DROPPED SCORE RULES: When dropping scores from an event, points from all three races at that event must be dropped, except where a rider has been disqualified from a race or races in that weekend. As a disqualification cannot be dropped, if the weekend being dropped contains a disqualification, that race must be replaced by a single dropped score from another event. Where a rider does not use a score from a race which they completed the riders finishing behind the rider dropping the result do not get promoted but instead score points for their actual finishing position.

8.5. SIDECARS: Championship points will be counted separately for sidecar riders and sidecar passengers to create two separate

championships.

8.6. SOUTHERN STAR: The Souther Star Championship will run alongside the final two Masters events and all races for all classes at the final two events of the season will count for the Southern Star awards. The same points scoring rules as above will apply to the Southern Star Championship apart from the tie breaker, which will consider only results from the six counting rounds, with positions in the final counting round of the season being used if riders cannot be split on race results.

9. FUTURE STARS CHAMPIONSHIP:

A Future Stars Championship will run across all 2022 Masters Superbike Championship events. This championship will have an end of season prizefund and will be open to all riders who are twenty years old or under on April 22nd 2022, the day prior to the first event of the season. All riders, irrespective of the class they are competing in, will score points in the Future Stars Championship. Points will be scored as follows;

9.1. FUTURE STARS CHAMPIONSHIP POINTS:

9.1.1. Each eligible rider will score points for the number of points scoring riders that they beat in their races up to a maximum of fourteen, whether those riders are eligible for Future Stars points or not, as follows;

1st	2nd	3rd	4th	5th	6th	7th	8th	9th	10th	11th	12th	13th	14th
14	13	12	11	10	9	8	7	6	5	4	3	2	1

9.1.2. Bonus points will be available for a podium finish as follows;

1st	2nd	3rd
6	4	2

9.1.3. In the Supersport and Superbike classes points will be calculated on the Cup results for Cup designated riders and on the overall result for Pro riders.

9.1.4. Sample points: A Future Stars rider finishing third overall in a Supersport race with fifteen or more finishers would receive 12 points for their finishing position plus 2 bonus points for third place making a total of 14. A rider winning a Junior Supersport race while beating six other riders would receive 6 points for their finishing position plus 6 bonus points for a win making a total of 12.

10. DISQUALIFICATION & CHAMPIONSHIP POINTS:

10.1. If a rider is disqualified from a race for a technical infringement they will lose any championship points scored in the race from which they are disqualified, they will also lose any championship points scored in previous races at the same event. In addition any rider who is disqualified for a technical infringement will also be docked 25 points from their season total for their first offence and fifty points for each subsequent offence.

10.2. If a rider is disqualified for a riding infringement they will only lose points scored in the race from which they are disqualified.

10.2. If a rider is disqualified from a Superbike or Supersport race for not carrying the correct tyre stickers they will lose the points from the race in which they did not carry the stickers and will also be fined 5 points for the first offence, 10 points for the second and 15 points for each subsequent offence.

11. ENTRIES: Entries for all events will be through the Mondello Park on-line entry system. The fee for each class at each event will be as set out in the online entry system, including any late entry fees. Discounts are available for multiple entries in one payment (see the competitor info pack for details of these offers). All riders can set themselves up as a user on the system when entering for the first time and their information will be stored for subsequent entries. Any rider changing class, contact details or bike must make those changes on the system prior to entering.

12. MACHINERY AND CLASSES: Where a competitor wishes to race a single machine in more than one class, that will be allowed as long as the machine has been scrutineered for that class, has qualified for that class and is deemed by the Championship co-ordinator and Clerk of the Course to be suitable to run with that class.

The following examples are acceptable.

Pre-Injection 600 bikes in Supersport.

Pre-Injection 1000 bikes in Superbike.

Lightweight Supersport Machines with Pre-injection.

Classic Superbikes with Superbike.

12.1. SUPERSPORT MACHINES CAN NOT RUN IN THE SUPERBIKE CLASS: Entries will not be accepted from Supersport machines wishing to race in the Superbike class.

13. COMBINING OF CLASSES: When necessary classes may be combined with classes of similar performance such as Supertwins with Production Twins and Moto 400 with Classic Superbikes. When this occurs the combined classes will have a combined qualifying session, unless there are more entries than the maximum number of riders allowed in a qualifying session, in which case the two classes will qualify separately and then their times will be combined to form the qualifying result. The race grid will be formed by qualifying times and the grid may or may not be split into classes. Where the grid is oversubscribed any non-qualifiers will be accommodated where possible in the Superbike and Supersport 'B' grid subject to their lap times being sufficiently quick to not cause a safety issue. Where two sessions are run to form a grid and conditions in one session are significantly different from the other session, enough to make combining the two sessions unworkable, i.e. if one session was dry and the other was wet, the formation of the grid will be at the discretion of the Championship co-ordinator and the Clerk of the Course.

14: AWARDS

14.1. RACE AWARDS: Awards will be presented to each class based on the following; **1-3 starters** 1st place only; **4-6 starters** 1st and 2nd place only; **more than 6 starters** 1st, 2nd & 3rd place.

14.2. AWARD PRESENTATION: Where a podium presentation is organised for a particular race the award winners from each class

(taking into account 9.1 above) within the race will be required to attend the presentation. Failure to do so may result in the withholding of the award or loss of championship points.

14.3. PRIZE MONEY: The Superbike and Supersport class prize fund for an event, if any, will be as per the event regulations.

Any rider making any announcement, or allowing themselves to be included in any announcement regarding championship positions, points or awards other than those officially sanctioned by the Masters promoters or the MCI Short Circuit Committee may have their championship points reduced or removed and may be precluded from competing in future Masters events.

The times for the two Superbike sessions will be combined to form the grids with the same applying to the Supersport qualifying times.

4.2. Riders will be split across the two sessions based on their Cup and Pro designation apart from those Cup riders who qualify to take part in the Pro session based on the following.

- For a Cup rider to be eligible to qualify in the Pro session they must have achieved at least one lap within 107% of the fastest lap time in their class, in at least one of the three races for their class at the two previous Masters race events in which they competed.

4.3. All 'Cup' riders who do not fit the above criteria will qualify in the Cup session.

4.4. All Pro riders will qualify in the Pro session.

4.6. Qualification for the championship race will be dependent on a Cup rider achieving a time within 110% of the fastest time set in the combined qualifying sessions for their class, irrespective of which session they have qualified in, with all Cup riders who do not achieve the 110% standard being placed on the grid for 'B' race one, even if they qualified in the 'Pro' session.

4.7. The organisers reserve the right on safety grounds to exclude any rider from the 'B' race grid if their qualifying lap time is more than 110% of the fastest 'B' Race qualifying time in their class. If this is necessary the rider may be accommodated on another grid where the lap times recorded are closer to their fastest lap time, subject to this being possible and to there being space on the grid.

4.8. All Pro riders will automatically qualify for the Championship Race.

5. SUPERBIKE & SUPERSPORT RACE 1 GRID POSITIONS

5.1. Qualifying positions for Superbike Championship Race 1, Supersport Championship Race 1 and Superbike & Supersport 'B' Race 1 will be determined by lap times set in qualifying with all Pro riders along with those Cup riders who achieve a time within 110% of the fastest qualifying time, racing in the Championship race.

5.2. Qualifying positions for Superbike & Supersport 'B' race 1, will be determined by lap times set in qualifying with all Superbike and Supersport Cup riders who do not achieve a time within 110% of the fastest qualifying time in their class, racing in the 'B' race where the Superbike and Supersport riders will line up in order of lap time irrespective of class.

5.3. In all cases it is a riders sole responsibility to make themselves aware of the race/races in which they will be placed and what their correct starting position should be.

5.4. The organisers may move or place a rider from the 'B' race grid into the Championship Race grid if the rider usually qualifies for the championship race but due to mechanical, or any other issues, has failed to set a lap time, or a representative lap time, in qualifying. This will be done on safety grounds only.

5.5. Any changes to the grids will be at the discretion of the Clerk of the Course and may include placing riders who have not qualified for a particular race into that race, based on their usual lap times, on safety grounds.

6.4. Grid positions for Superbike & Supersport Race 2, will be determined using the combined fastest lap times for each rider from championship race 1 and 'B' Race 1 with all Championship Race 1 competitors starting ahead of all riders who are upgraded to the race from the 'B' Race.
